We, the undersigned, having examined the books and accounts of the selectmen and treasurer, find them correct. Your auditors respectfully recommend that $2000 be raised to apply on debt and interest.

GEORGE FARR,
WM. H. MITCHELL, } Auditors.

REPORT

—OF—

THE SCHOOL BOARD,

—OF THE—

Town of Littleton,

FOR THE

Year Ending March 1st, 1889.

SCHOOL REPORT.

GENTLEMEN: In submitting the annual report of the school board we desire to reiterate our disapproval of the course adopted, of discussing the qualifications of teachers in a public manner.

In our judgment it is not obligatory upon those having charge of your educational interests to perpetuate the failures of a teacher, who, though earnest and faithful to her conceptions of duty, has been unable to attain complete success, when not infrequently such failure is due to causes over which she has no control. Again it is at least unkind and also of very doubtful expediency in thus comparing one teacher with another. We shall therefore refrain from all comparisons, and simply attest our convictions that all our teachers are entitled to praise for the zeal with which they entered upon their duties and the diligence and faithfulness with which their difficult tasks have been performed. So far as practicable the board have endeavored to retain those teachers who were efficient in the schools where they were employed last year, believing that too frequent changes of instructors, with the consequent diversity of methods of instruction, to be a serious interference with the work of the school. Occasionally it becomes advisable to change teachers, when there is no palpable failure or even grounds for censure, when such action tends to allay fault-finding and contribute to harmony. Those teachers who have been continued have a right to consider their retention a certificate of our highest commendation. One of the best aids which a teacher can have is the sympathetic co-operation of parents. Too often teachers are subjected to the severest criticism from those who have never darkened the doors of the school-room, the government of which they assume so intimate an acquaintance. The board have found the feeling of parents in this respect such as to warrant reproof. To those who have exhibited by their presence at the exercises of the school their interest in the welfare of their children, we would acknowledge our appreciation. We congratulate the citizens of the town upon the satisfactory

condition of the schools at the present time. While there is room for improvement, we shall say without fear of contradiction that no town in the state of equal population can establish the claim to better schools than exist in Littleton.

The attention of the district is called to the need of an appropriation to be expended in repairs upon the various schoolhouses, which with hardly an exception, require the immediate expenditure of a small sum of money. While the voters of the district have thus far been generous, and have voted all the funds asked for; let us hope that the spirit of liberality so characteristic of our people will lead them to make a larger appropriation for the cause of education, as the school fund is not sufficient to meet these requirements.

Teachers are urged to make their registers as complete and accurate as possible. As the statistics contained therein are reported to the state superintendent, any omissions on the part of teachers involves additional work by the committee, which from the complicated shape in which some are returned, renders the task a difficult one.

In conclusion we wish to express our gratitude for the courtesy which has been so generally extended to us during the past year, and express our appreciation of the support accorded us in our efforts for the promotion of the educational interests of the town district.

Respectfully submitted, FRANK C. ALBEE,
Chairman School Board.

ROLL OF HONOR.
